

“Life changes. So does insurance needs.”

CLOSE INSURANCE

CHECKING - IN

Insurance is not exciting. Insurance is not flashy. Other than some funny commercials insurance can be dull, until a catastrophe or sudden accident strikes! It is then that we begin to panic and wonder am I covered or did I buy enough insurance, or can I afford my deductible?

We at Close Insurance pride ourselves in attempting to personally reach out and follow up with you on

life's movement. If you haven't had a policy review with us in the last 36 months please give our office a call to discuss.

YOUR HOME:

Perhaps you've added new rooms or made some upgrades to your roof or windows. Let us make sure you have enough coverage because your home is usually your largest asset.

YOUR AUTO INSURANCE: Our carrier partners are always on the move with amazing bells and whistles that provide you the opportunity to have some amazing coverage. These endorsements could cost your pennies a day, but in the even of an accident pay large dividends. Items such as diminishing deductibles or newer car replacement coverage. Let's check and see if you have any overlooked new coverage opportunities for you.

YOUR LIABILITY. We are here to safeguard your earnings, savings, and other assets with liability and medical payment limits that are realistic for the costs of today's claims. The cost to repair and replace these newer vehicles is increasing every day, along with the

cost of medical bills and helicopter rides from the scene of accidents. Do not be left holding the bill for an accident you caused. Make sure your limits are adequate to protect you

Purpose of Insurance: Insurance isn't just mandated by states and banks. It is a way that you manage your life choices. When you buy insurance, you transfer the cost of a potential loss to the insurance company in exchange for a premium aka "monthly bill".

In a way you are buying money. Money that will be paid on your behalf to someone else in the case of an accident or damage to your home because of a storm. This way you won't have to spend your hard-earned savings for unexpected costs. The goal of our agency is to provide you Peace of Mind.

Umbrella Insurance:

This is a unique policy that you may want to consider as you and your family increase your exposure to certain risky activities or begin to accumulate savings and wealth. This type of insurance provides an

extra layer of protection for events such as: a guest is hurt at your home while playing on a trampoline, or pick-up soccer game. This policy provides protection for you when an extreme auto accident occurs, and you are at-fault for someone's serious injuries such as a disability or lost wages due to rehabilitation time. Do not let a lawsuit cause you sleepless nights and years of turmoil. Make sure you have affordable adequate insurance protection
